Trial Eligibility and ORTs

The ORT Title must be earned at least 14 days before a trial opening date to be eligible for the first draw period.

All odors must be passed in order to earn the ORT title. It is not required that they all be passed at the same test.

Basic Description of the Test

To successfully pass an ORT a dog must identify the location of the target odor and the handler must correctly call an "alert" within a three-minute time period. The Odor Recognition Test consists of a drill type exercise which requires 12 closed boxes typically set up in a pattern of two rows, spaced a minimum of 48" apart. The ORT is conducted on leash. Complete information can be obtained on the NACSW website. Handlers may test on all 3 odors at the same test.

*All exhibitors should obtain and review a copy of the **NACSW K9 NOSE WORK® RULE BOOK**. You may get it from their website: www.NACSW.net*

No dog will be given more than one space in the same odor test at a single event.

Results

During the odor re-sets, the official results sheet will be brought out to the parking area for testers to photo or review. It's recommended that you verify your results and let the officials know if you have any concerns regarding them.

LOCATION DETAILS

Modeled after real-life detection work, NACSW trials are held in many different locations, with a variety of terrain, under varying weather conditions. Dogs and handlers need to be able to safely negotiate a variety of surfaces, including, but not limited to, tile, linoleum, carpeting, gravel, asphalt, uneven surfaces, and slippery footing. Handlers should be prepared to deal with a variety of weather conditions, including heat, cold, rain and snow. Trials frequently require covering extensive distances to get to and from the parking area to each of the search areas and generally require that this be done across natural, uneven surfaces. Handlers should be prepared for the physical demands and must be able to navigate the terrain with their dog accordingly. Participants should expect to spend most of the day outside or in their vehicles as there are rarely indoor crating options at trials. Please be prepared for you and your canine partner to deal with all of these varying environmental challenges. Handlers should familiarize themselves with potential regional risks and health concerns that may affect themselves or their dogs. Handlers agree that they are entering this trial at their own risk.
